

How to order

What do you want to learn today?

Our mission is to advise you and support your choice, producing an enjoyable feast for the senses - whatever your budget.

After we've helped with your order, we'll choose some fresh concepts and let them marinade, stirring them into a script spiced with laughter, learning and interactivity. Then we'll add a few performers to taste, allowing them to simmer and steam until ready, and season with props, costumes, cameras, posters and multimedia, as required.

Finally, we'll serve you and your colleagues with something you can sink your teeth into, that lingers on the tastebuds of memory forever.

The Chefs

Sean O'Connor is our Executive Chef, based in Cape Town. A writer, performer, facilitator and communications consultant with an M.Phil in Education from UCT, he is ably supported by a crew of sous chefs in Cape Town, Jo'burg and Durban.

Pricing

Good food can be simply prepared and quickly served, or demand more time...

All of our interventions involve two elements which affect pricing:

Pre-Production, which involves consultation and planning, concepts and ideas, scripting or script adaptations, casting and contracting, rehearsals, direction, prop-making and costume hire and perhaps a client preview.

Production entails performance, staging (sound and lights if necessary), transport, staff welfare and production management.

Discounts are given for volume and timing of shows: three shows on one day, or shows on successive days, for example.

We love cooking, we love performing, we love a bellyful of laughter and won't let you go hungry.
